

## Autism 4+1 Application

Saint Mary's College students meeting the prerequisites set forth below may apply to the Master of Science in Data Science program as a first or second semester junior. If admitted to the master's program, the student will take two graduate level courses the summer between your junior and senior year in the Autism Studies program one to two while a senior allowing you to earn up to twelve credits towards your graduate degree while still an undergraduate. In the fifth year, you will be charged the per credit hour rate equivalent to the cohort you are joining.

**Additional requirements for Intense Intervention track:** The instructional program leading to eligibility for the Intense Intervention license consists of three graduate-level courses in education (EDUC 530, 565, and 568). Students in the "4+1 Program in Autism Studies" who have completed the Dual Licensure Program in Elementary Education with Mild Intervention during their baccalaureate phase will be able to take the graduate-level courses required for the Intense Intervention license during their fifth year in the program

Application Deadline: March 31
