Estimating Your Expenses

This worksheet is provided to help you estimate the amount of Saint Mary's College charges that you and your family will be responsible for in 2014–15. Note that the costs below are **estimates** because our Board of Trustees determines the exact 2014–15 tuition and fees in April. This worksheet is based on direct charges and does not include indirect expenses for books, supplies, travel, and personal expenses. You will need to plan for those costs as well as the direct costs **estimated** below.

Student Employment

If you choose to work in order to earn money to help pay your student account charges, the amount you earn will depend on the pay rate of your job and the number of hours you choose to work. Wages are paid on a monthly basis and students have the option to apply their earnings to their student account or to have the earnings direct-deposited into their bank account.
