

Institutional Research Update (September 2014)

Graduation Rate

As President Carol Ann Mooney noted at the recent College Forum, **81% of students** who entered the College in fall 2008 **graduated within six-years** which is the **3rd highest rate** we have seen in the **last twenty-five years** at Saint Mary's. This compares to a national average for private, four-year, non-profit institutions of 66%. Perhaps more impressive, **96% of those graduates completed their degree in four-years**.
